

Announcement

October 23, 2003

LightBoss, manufactured by American General Energy Corp in Flemington, NJ was recently honored by being selected as one of the **Top 25 New Products of 2003** by *Electrical Contracting and Engineering News* magazine.

Each year, for their December issue, *EC&EN* magazine's panel of independent engineers and contractors select the top 25 new products in the electrical industry. We are proud to say that LightBoss was chosen from approximately 750 entries.

LightBoss is a control system designed to save energy in all types of HID lighting systems. Patented technology enables energy savings of up to 40% while only minimally reducing the perceptible light output.

Electrical Contracting and Engineering News is published monthly by Cygnus Business Media. It is received by more than 31,000 electrical contractors and specifying / design engineers. *EC&EN* magazine contains articles on the latest techniques, technology, developments, and products and regulations in the electrical market.
